

WELL-BALANCED AND RUGGED GAS CUTTING TORCH

# MK-250

KOIKE SANSO KOGYO CO., LTD.

Koike's versatile

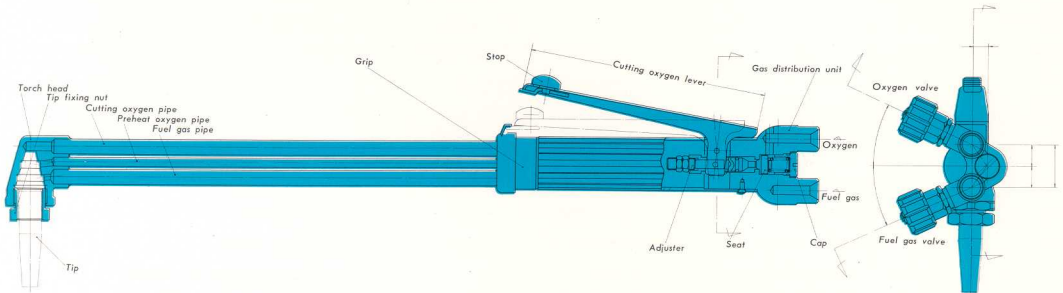

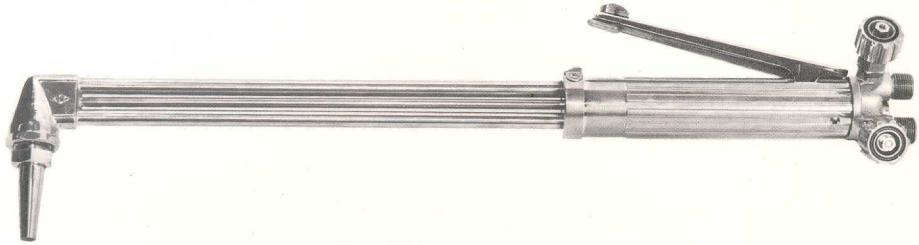

# MK-250

is a universal type torch employing tip mixing method.

The MK-250 Gas Cutting Torch is well-balanced, simple and rugged in design, and durable. It will reduce risk of flashback. Even if flashback should occur, the tip mixing method reduces risk of damage to the unit.

The MK-250 is designed for many applications, therefore is very efficient: by changing tips depending on the job, one MK-250 cutting torch fulfills various functions.

Select the appropriate one for your job as there are two kinds of the MK-250, one is a 75° angle head and the other is a 90° head.

## TIPS FOR MK-250

102	00	Acetylene	Standard tip	
	7
